

2nd Medical Recruiting Battalion Building Redstone Arsenal, Alabama

Client	US Army Corps of Engineers – Mobile District
Scope	Design/Build Services
Contract Value	\$1.8Million

Engineering Design Technologies, Inc. (EDT) provided design/build services for construction of the U.S. Army, 2nd Medical Recruiting Battalion building located at Redstone Arsenal, Alabama. The building serves as the headquarters for all satellite medical recruiting offices throughout the United States. The 2nd Battalion concentrates on recruiting doctors, nurses, and other medical professionals for the U.S. Army.

This 5,000 square foot building provides offices for Command Officers, administrative staff, technical support staff, IT staff, marketing staff, planning department staff, and development staff. The building is equipped with a conference room for meetings, seminars, and training. In addition, storage is provided in the building for storing recruiting material and records.

Supporting facilities include: electrical, heating and air conditioning, landscaping, site development, information systems, fiber optic communications, fire sprinkler and fire alarm, and security systems. Parking consists of one large lot, which accommodates 30 individual parking spaces. Four spaces have been designated for visitors and two additional spaces are handicap stalls, which are van accessible.
