Executive Vice President Director of Engineering

Throughout his career, Richard Mays has successfully completed a multitude of projects in the roles of Project Engineer, Project Manager and Principal-in-Charge. Much of his experience has been focused with building design for various industries and in the transportation industry with the development of airports. In addition, Mr. Mays' diverse background includes analysis and design for numerous process related engineering projects for industries such as: Power, Food, Transportation and Water/Wastewater.

Mr. Mays directs Engineering Design Technologies' Engineering Division and participates in projects internationally. He earned his Bachelor of Science in Mechanical Engineering from Clemson University and is a registered professional engineer in Georgia, Arkansas, Texas, Colorado, New Mexico, Indiana and Kansas.

Mr. Mays is involved in the community through private participation and within organizations such as the American Society for Mechanical Engineers (ASME). He participates for the City of Roswell as a stakeholder representative for the North Fulton County Transportation Plan. He is involved in a mentoring program at a local high school and also serves as a member of the Board of Directors for the Georgia Chapter of the American Council of Engineering Companies (ACEC).
