<b>Contract Value</b>	\$10.2Million

---

Engineering Design Technologies, Inc. (EDT) provided civil and structural engineering design services for the construction of a new facility located on the campus of Southern Polytechnic State University in Marietta, Georgia. The building is approximately 67,000 SF containing a 3-story open space architectural studio. Additionally, the administration offices for faculty members are housed in the same facility. The structure is comprised of sheer walls and frame on spread footings. EDT also provided construction administration services observing regulatory code compliance and sub-contractor adherence to design.
