

3rd Sustainment Brigade Headquarters

Ft. Stewart, Georgia

Client	USACE, Savannah District 100 West Oglethorpe Avenue Savannah GA 31401 Alan Trowhill
Scope	Design/Build 53,000 sf.
Contract Value	\$16,260,000
Contract Duration	540 Days
Project Status	30% Design Complete (December 2009)

Design/Build of a two-story pre-engineered steel frame building with masonry exterior to include sensitive compartmented info (SCIF) & fire protection and alarm system (IDS). Supporting facilities include electricity, security, lighting, water, sewer services, high temperature and chilled water lines, and booster pumps; fire protection, paving, POV parking; walks, curbs and gutters; storm drainage and information systems.

This project is to house brigade administrative and command operations. It is intended to be similar to office-type buildings in the private sector community.

The award date of this project was August 27, 2009. This project is part of Task Order No. W912HN-07-X-9405, Project No. 61363. It is still under construction.
