## Chief Operating Officer

As Chief Operating Officer, Dr. Anthony Taylor is responsible for the company-wide operations management of engineering. He oversees the water/wastewater projects pipeline and utilizes best management practices to implement corporate strategy. He brings to EDT more than 15 years of professional experience in engineering and construction management, business development, and operations in the public and private sectors. His project portfolio includes serving as the program director of a \$630 million water and wastewater capital improvement program in Georgia, and as Director of Engineering for a \$3.5 billion-dollar Chemical Demilitarization Plant for the DOD in Indiana.

Dr. Taylor holds a bachelor's degree in civil engineering, a master's degree in management, and a Ph.D. in engineering management from North Carolina State University. He also completed executive education in management at MIT Sloan. Among his civic service and accomplishments, he is a member of the Board of Directors of DeKalb Chamber of Commerce, and a 2008 recipient of the Black Engineer of the Year Awards.
